Resolution for Private Session

AT REGINA, SASKATCHEWAN, WEDNESDAY, DECEMBER 21, 2016

AT A MEETING OF BOARD OF POLICE COMMISSIONERS
HELD IN PUBLIC SESSION

AT 9:00 AM

These are considered a draft rendering of the official minutes. Official minutes can be obtained through the Office of the City Clerk once approved.

Present: Mayor Michael Fougere, in the Chair
                Councillor Joel Murray
                Councillor Barbara Young
                Commissioner Vic Pankratz
                Commissioner Gordon Selinger

Also in   Council Officer, Elaine Gohlke
Attendance: Solicitor Katrina Swan
                Chief of Police, Evan Bray
                Deputy Chief, Dean Rae
                A/Superintendent, Brent Ermel
                Inspector, Sheree Ortman
                Executive Director of Administrative Services, Louise Mohr

APPROVAL OF PUBLIC AGENDA

Gordon Selinger moved, **AND IT WAS RESOLVED, that the agenda for this meeting be approved, as submitted.**

ADOPTION OF MINUTES

Councillor Barbara Young moved, **AND IT WAS RESOLVED, that the minutes for the regular meeting held on November 30, 2016 be adopted, as circulated.**

ADMINISTRATION REPORTS

PO16-30   Tamra Keepness Investigation

> **Recommendation**
> That the Board of Police Commissioners continue to offer a $50,000 reward, until December 31, 2017, for information that leads to determining the whereabouts of Tamra Keepness.

Gordon Selinger moved, **AND IT WAS RESOLVED that the recommendation contained in the report be concurred in.**

PO16-31   Triple Homicide Investigation

> **Recommendation**
> That the Board of Police Commissioners continue to offer a reward of $50,000.00 for information leading to the arrest and conviction of the person(s) responsible for the death of Gray Nay Htoo, Maw Maw and Seven June Htoo, until December 31, 2017.

Vic Pankratz moved, **AND IT WAS RESOLVED that the recommendation contained in the report be concurred in.**

PO16-32   Monthly Crime Statistics – November 2016

> **Recommendation**
> That this report be received and filed.

Joel Murray moved, **AND IT WAS RESOLVED, that this report be received and filed.**

PO16-33   Letters of Appreciation and Social Media Feedback

> **Recommendation**
> That this report be received and filed.

Councillor Barbara Young moved, **AND IT WAS RESOLVED, that this report be received and filed.**

BOARD SECRETARY REPORT

PO16-34   Consideration of Meeting Dates and Times for 2017

> **Recommendation**
> 1. That the 2017 meetings of the Board of Police Commissioners be held at 9:00 a.m. on the following dates:

January 25 (previously approved)	July 26
February 22	August 30
March 29	September 27
April 26	October 25
May 31	November 29
June 28	December 20

> 2. That the first meeting of the Board of Police Commissioners in 2018 be held on Wednesday, January 31 at 9:00 a.m.

Vic Pankratz moved, **AND IT WAS RESOLVED that the recommendation contained in the report be concurred in.**

RESOLUTION FOR PRIVATE SESSION

Joel Murray moved, **AND IT WAS RESOLVED, that in the interest of the public, the balance of agenda items for this meeting be considered in private session and that the Board recess for 20 minutes.**

The Board recessed at 9:09 a.m.

The media left.

Re: Firearms Amnesty Initiative

RECOMMENDATION

This report be received and filed.

CONCLUSION

The Regina Police Service is working proactively to address the issue of gun violence. Firearms related calls and seizures of firearms increased dramatically in 2016. In order to help combat the increase, the Regina Police Service wants to raise awareness about the potential risk of unwanted firearms in our community. Unwanted firearms can fall into the hands of criminals by way of break and enters, thefts or accidental loss. Reducing the number of these firearms in the City of Regina will have a positive impact on community safety.

From February 1 - 15, 2017, members of the public are encouraged to contact the Regina Police Service to surrender their unwanted firearms, replica firearms, and ammunition. During this timeframe, the Regina Police Service will not pursue any charges in relation to the unauthorized possession of firearms surrendered as part of this amnesty initiative. Surrendered firearms will be checked by police to determine if they are involved in any ongoing investigations. Firearms will then be destroyed.

Our City of Regina partners including Regina Transit and the Community Services Department will be participating and providing an incentive for members of the public who voluntarily surrender firearms. Those who turn in unwanted firearms will have the option of receiving a one-month Adult Leisure Pass or a 31-day Adult Transit Pass as an additional incentive.

BACKGROUND

Calls for service involving firearms and the seizure of firearms have increased in Regina over the past number of months. The increase in firearms-related incidents presents a serious risk to public safety.

In 2016, there were 141 violent offences involving a firearm. This is a 94% increase from the five-year average. There were also 343 firearms seized over the same time period in the city of Regina. That's a 31% increase over the five- year average. Also concerning, is that there were 55 firearms reported stolen in 2016. That compares to 35 from the previous year. These figures represent a 57% increase in stolen firearms.

While enforcement will always be of upmost importance, it is our responsibility to act proactively on this issue as well. Other jurisdictions in North America have successfully operated firearms amnesty programs. In these programs, members of the public are encouraged to turn in unwanted firearms, replica firearms and ammunition to police. Police agree to not pursue any charges in relation to firearms possession. Police still check the weapons to determine if they are related to any ongoing investigations.

In October 2016, Halifax Regional Police and the Halifax RCMP held a two-week firearm amnesty program called "Fares for Firearms". The objective was to increase public awareness about the risks unwanted firearms pose in the community. People surrendering firearms were offered transit tickets (valued at $100). The program resulted in the seizure and destruction of 152 firearms over the two-week period. Over $12,000 worth of bus tickets were handed out.

The province of B.C. held a similar gun amnesty campaign during the month of October 2016. They did not offer any participation incentives. 1,184 firearms were surrendered.

DISCUSSION

For the two-week period running from February 1 - February 15, 2017, the Regina Police Service will coordinate a firearms amnesty initiative. We will promote the initiative in the media through advertising and appearances from January 25 until February 15.

Citizens of Regina will be asked to call the Regina Police Service to have officers pick up their unwanted firearms. We do not want members of the public transporting firearms to the Regina Police Service. Improper transportation of firearms presents a safety risk and can result in potential criminal implications.

Police officers will check the serial number to determine if the surrendered firearms are subject to any ongoing investigations. The Regina Police Service will then destroy these firearms.

The Regional Crown Prosecutors office and the Chief Firearms Officer are supportive of this program.

To our knowledge, this will be the first firearms amnesty initiative in Saskatchewan.

RECOMMENDATION IMPLICATIONS

Increase community safety by decreasing the number of unwanted firearms in the city of Regina and raise awareness about the potential risks of unwanted firearms.

Financial Implications

None with respect to this report

3-

Environmental Implications

Re: Trespass to Property Initiative

RECOMMENDATION

This report be received and filed.

CONCLUSION

The Trespass to Property Act initiative is intended to assist Regina business owners manage unwanted guests who come into their place of business. It is a lawful way to inform people that in some cases they are prohibited from the premises. This initiative identifies expected patron behaviour without police intervention.

The Regina Police Service has been utilizing *The Trespass to Property Act* since February 2015. At that time the Regina Police Service began working proactively with business owners to address the issue of unwanted and disruptive guests. A number of businesses, specifically in downtown Regina, were repeatedly dealing with individuals who were impacting their business in a negative manner. For example: by being intoxicated, harassing paying customers, shoplifting, or aggressively panhandling. The Regina Police Service educated business owners about *The Trespass to Property Act* by attending to downtown business meetings. The *Act* authorizes owners to ban or prohibit individuals from their business who are repeatedly causing problems. It also allows police officers to issue Summary Offence Tickets to those who choose to disregard the bans.

Since February of 2015 and up to and including September 2016 the Regina Police Service has received 651 ban notifications from Regina businesses; 329 in 2015 and 322 in 2016. From these 651 ban notifications, police have issued only 84 Summary Offence Tickets to people who failed to abide by their bans; 66 tickets in 2015 and 18 tickets in 2016. To summarize, since February 2015 tickets were issued to just 12% of the people receiving ban notifications.

Further, of the 322 ban notification forms issued in 2016 only 14 of them (or 4%) originated from downtown businesses. Out of 322 bans issued, 295 of them were issued by 'big box' stores or retail businesses as a result of the person shoplifting. This *Act* does not target our city's homeless or disadvantaged people.

The Regina Police Service has been working closely with the Housing First Initiative and Phoenix Residential Society in order to address the challenge of homelessness. The Regina Police Service often responds to public complaints of an unwanted person in a business. Some of these people have been identified as those with high needs, with addictions and are often

identified as homeless. Three (3) of these individuals have been placed successfully in the Housing First Program in 2016.

BACKGROUND

In the last two years, the Regina Police Service dealt with over 6,600 calls for our service in the downtown area that could be classified as disturbance calls. These calls included fights, publicly intoxicated persons, suspicious persons, shoplifting activity, and unwanted guests. Our downtown foot and bike officers responded to the majority of these calls.

The Trespass to Property Act authorizes business owners to take the initial steps in dealing with persons who are negatively impacting their business. Business owners can issue ban notifications to individuals who engage in "prohibited activities" while on their business premises. *The Trespass to Property Act* does not specifically identify what prohibited behaviour looks like, however the *Act* does specify in section 11 that 'any activity that is prohibited by signage is notice of a prohibited activity'.

In order for a business owner to issue a ban, *The Trespass to Property Act* requires that the prohibited activity has to be clearly disrupting business activities. Business owners are required to describe the prohibited activity clearly and in detail on their ban forms. Our police officers have the discretion to not enforce bans if the ban is unreasonable or the reasons are insufficient.

Lastly, this *Act* does not apply to public places. A ban notification cannot be written for a subject who is clearly disruptive in a city park or on a city street for example.

DISCUSSION

Since February of 2015 and up to and including September 2016 the Regina Police Service has received 651 ban notifications from Regina businesses; 329 in 2015 and 322 in 2016. Many of these ban forms are associated with occurrences outside of downtown Regina. For a number of years, large retailers have been banning people who are involved in shoplifting offences on their premises. Of the 322 ban forms only 4% originated from downtown businesses.

From these 651 ban notifications, police have issued only 84 Summary Offence Tickets to people who failed to abide by their bans; 66 tickets in 2015 and 18 tickets in 2016. To summarize, since February 2015, tickets were issued to just 12% of the people receiving ban notifications.

In 2016, 11 people received 18 Summary Offence Tickets. Of these 18 tickets, 9 of them were issued based on downtown business bans.

This initiative is the essence of community policing. The Regina Police Service continues to work with business owners to develop a process that gives them options to successfully manage the unwanted guests they encounter. This initiative has also helped our Service identify those individuals with addictions, mental health challenges, and high needs. As mentioned, it has

helped us successfully place three people in the Housing First Program where they are self-sufficient and receive proper care and attention.

In 2015 we saw the 'unwanted guest' calls in downtown Regina decrease. There were 3,497 unwanted guest calls for service in 2014 and only 3,142 in 2015. That's a decrease of 11%. *The Trespass to Property Act* alone did not result in 355 fewer calls for service but we are confident in saying it contributed to this result.

Summary

Police enforcement of *The Trespass to Property Act* is not the answer in all situations of unwanted guests and it should be noted our members are not issuing offence tickets without discretion. *The Trespass to Property Act* gives both police officers and business owners a balanced and lawful tool to deal with unwanted guests without having to exercise authority under the Criminal Code. This initiative can be considered when the capacities of other public services won't work and there is a need for a different and combined approach from police and businesses.

The intention of this initiative is not to fine or arrest everyone contravening this *Act*. On the contrary, this initiative also aims to identify and assist people with addictions, mental health challenges, and those with high needs. Once they are identified, we'll continue to work with programs such as the Housing First Program to help them. The Service will remain transparent in its approach and will continue to evaluate this initiative to ensure it meets the needs of business owners and our community.

Re: Municipal Benchmarking Network Canada (MBN Canada) Results Report

RECOMMENDATION

This report be received and filed.

CONCLUSION

A similar report with the all of the benchmarking results was reviewed by the Executive Committee of City Council on October 5, 2016, whereas this report provides only the Regina Police Service results.

The City of Regina joined the MBN Canada, formerly the Ontario Municipal Benchmarking Initiative (OMBI), to better understand overall effectiveness and efficiency of municipalities. This is the first year Regina has reported results since joining. One service included in the MBN Canada suite of services is police services.

MBN Canada publicly released their annual report on Tuesday, November 1, 2016. The City of Regina's implementation schedule for the MBN Canada can be found in Appendix A. Detailed results for the Regina Police Service are provided in Appendix B. Appendix C includes Questions and Answers about MBN Canada and interpretation and information about specific results.

MBN Canada data will be used as a key input into the Regina Police Service's strategic and business planning and will contribute to the Service's ongoing commitment to continuously improve effectiveness and efficiency.

BACKGROUND

In 2014, the City of Regina decided to improve its capacity to measure and report on operational performance. In 2015, the City joined MBN Canada, a national organization that provides a rigorous framework for measuring municipal efficiency and effectiveness on a wide range of services. As a participating municipality, the City can compare its performance across a standard number of services to other municipalities. MBN Canada collects data on more than 700 measures across thirty-seven municipal service areas in sixteen municipalities in six provinces. Of these, fifteen actively report results, with the sixteenth scheduled to begin next year. The following cities are members of MBN Canada: Calgary, Hamilton, Halifax, London, Montreal, Ottawa, Regina, Thunder Bay, Toronto, Windsor, and Winnipeg. In addition, the following regional municipalities are also members: Durham Region, Halton Region, Niagara Region, Region of Waterloo, and York Region.

DISCUSSION

MBN Canada Measurement Framework
The MBN Canada measurement framework includes service effectiveness and service efficiency measures. Effectiveness measures generally relate to the *amount* of service provided using factors to allow for comparisons such as population, number of households, or geographic area (e.g. hectares of parkland as a percentage of overall geographic area). Efficiency measures are based on a standardized approach to service costing (that is also factored to allow for comparisons) and occurs at two levels:

1. The **direct** cost of delivering the service: Any costs that are directly attributable to the delivery of a service such as personnel, materials, equipment, etc.
2. The **total** cost of delivering the service: All **direct** costs as well as the cost of any overhead such as human resources, finance, etc. The MBN Canada framework has specific methodology for allocating these costs to ensure appropriate comparisons. The methodology will be an input to the development of the City's new Planning and Budget Analysis software project, currently underway.

Categories of Data within MBN Canada framework
1. **Board Measures (CAO)**: Measures included in MBN Canada annual published report. They are limited to a few key measures for each service area and describe key elements of performance. The results of these measures were released in November 2016.
2. **Expert Panel Measures (Publicly Reportable)**: The majority of the 700 measures are not published in the annual MBN Canada public report above. However, any jurisdiction can use the measures in public reports for comparative and analytical purposes. Data can be attributed to the municipality to which it applies.
3. **Expert Panel Measures (Not Publicly Reportable)**: A few measures are either under-development, have data quality issues or are considered of little interest to the public. Median and range information can be published for these measures but data cannot be attributed to any municipality. Regina would be able to publish this data about its own performance.

Process for Managing Data Quality
MBN Canada publishes a detailed data dictionary for each of its over 700 measures to provide a foundation for measure accuracy and comparability.

Adding to the strength of the data dictionary, each service within the MBN Canada framework has an Expert Panel consisting of representatives from each participating municipality with expertise in the delivery of the particular service. The panels annually review measures in the data dictionary to ensure they are the best representation of the service. They also annually review results, thoroughly testing data quality and comparability, requiring explanations for changes in results that might indicate an issue.

MBN Canada has begun initiating compliance reviews to ensure that municipalities are following the procedures outlined in the data dictionary. The first was completed in 2015 and showed that most municipalities are compliant. Additional compliance reviews have been launched in 2016 and will continue for one or two services each year.

Protocol for Using MBN Canada Data
MBN Canada has a formal protocol for the use of any data. As a participating partner, the City must comply.

While most of the principles are administrative, there are three that are important to understand more broadly:
- MBN Canada identifies and publishes the ***influencing factors*** that could potentially affect results for each service area. For example, weather and geology will affect the cost of road maintenance. No member organization can publish results without also presenting the influencing factors. Any member must provide context for a municipality's performance, and no public report should lead a reader to make conclusions based only on raw MBN Canada data.
- MBN Canada, as a collegial partnership, expects all partners to respect other partners in the system. Public reports must not make any value judgments about the benchmarking results of other municipalities. Where references to other jurisdictions are made, they must only be made to provide context to the reporting jurisdiction's information.
- Municipalities may present comparisons of their performance to a subset of the members in the partnership. However, comparisons made must be fair and reasonable – there must be a reasonable logical basis for the comparators.

Findings

15 Service Areas Report on 2015 Data in 2016
The City is reporting on 2015 results for 15 services in the 2016 MBN Canada Annual Report and will roll out the remainder over the next 2 years. The planned roll out is in Appendix A. Detailed results for the Regina Police Service are provided in Appendix B.

Police Results

- *Police:* Regina, like many other Canadian Census Metropolitan Areas, experienced an increase in police-reported crime and crime severity last year. While Regina's police-reported crime and crime severity are among the highest within the MBN Canada system, we are doing the right things to ensure the safety and security of our residents. In the past eleven years, 2005 to 2015, Regina has had the second largest decrease in the Crime Severity Index in Canada with a 48% reduction. Only Halifax (-51%) had a bigger decrease. In 2005, Regina's Crime Severity Index was over twice as high as Canada's. In 2015, the gap had shrunk to 54%.

RECOMMENDATION IMPLICATIONS

Financial Implications

There are no financial implications for the Regina Police Service. However, participation in MBN Canada requires an annual membership of $17,500 which is within the City of Regina Administration's budget.

Environmental Implications

None with respect to this report.

Strategic Implications

MBN Canada data will be used as a key input to the Regina Police Service's strategic and business planning and will contribute to the Service's ongoing commitment to continuously improve effectiveness and efficiency.

Other Implications

None with respect to this report.

COMMUNICATIONS

The report was available to the public from MBN Canada on Tuesday, November 1, 2016.

Respectfully submitted,

Evan J. Bray,
Chief of Police

APPENDIX B
CITY OF REGINA 2015 RESULTS

2015 Performance Measurement Report - Summary

The 2015 Municipal Benchmarking Network (MBN) Canada Performance Measurement Report reflects the joint efforts of 15 municipalities and includes 160 measures across 37 municipal service areas. The results in the report will be made available to the public on November 1, 2016; and MBN partners can access results for all measures in the data warehouse at any time.

The 2015 Performance Measurement Report includes three years of data wherever possible (2013, 2014 and 2015). However, there are instances where measures that have been introduced in 2015 will only have one year and/or there may only be one or two years of data available for those municipalities who are reporting a service area publicly for the first time. This applies to some service areas from the cities of Calgary, Regina, Winnipeg, and Montreal.

City of Regina 2015 Results

This is Regina's first year of participation in MBN Canada and results for 2015 have been provided in 15 Service Areas for the Board (CAO) Measures that will be made public on November 1st, 2016.

This Appendix contains the comparative results in two different types of graphs (Range Graphs and Column Graphs) and Regina specific commentary on the influencing factors.

What is the Service?

A brief description of the service area and its objectives are found at the front of each service area section.

Influencing Factors

Results can be influenced by a number of factors and the influencing factors pertaining to the measures in the 2015 Performance Measurement Report are found at the front of each service area section.

The influencing factors speak to the uniqueness of each municipality such as population, geographic size, organizational form, government type and legislation. They also can include other unique service area or municipal impacts, specific to the reported service.

Additionally, in keeping with past practice and where applicable, cost measures are presented based on *MBN Total Cost*, which captures operating cost plus amortization. It should be noted that amortization rates and capitalization thresholds are unique to each individual municipality and it can lead to significant differences between operating cost and total cost for each municipality. All cost presented in the report are current dollars (dollar value in other time periods; not converted into present-day dollars). Inflation between 2013 and 2015 can easily explain cost increases of 4-5% even if it impacts all municipalities equally.

How to Read the Graphs

Measure Number and Name of Measure: Refers to the official measure number and name as per the MBN Data Warehouse.

BLDG206	Number of Building Permits Issued in the calendar year

The **Range Graphs** show the Minimum, Median and Maximum 2015 results from participating municipalities.
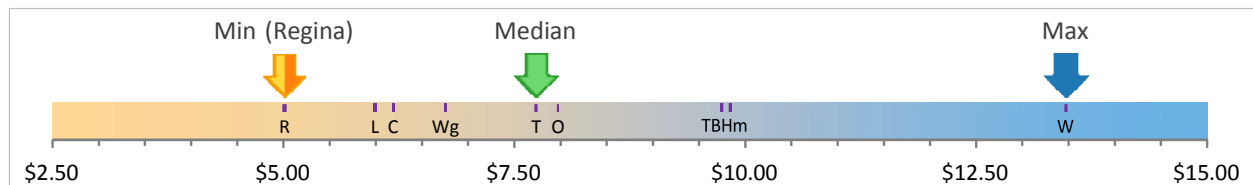

Unit of Measure (X axis): Refers to the unit of measure, e.g. dollars, percent, number.

Median: The median is the middle value in a set or range of data, i.e., if you had the numbers 1, 3, 5, 7 and 9, the median would be 5.

Label	Min	Median	Max	Regina
Description	Minimum value of all 2015 results from participating municipalities	Median value of all 2015 results from participating municipalities.	Maximum value of all 2015 results from participating municipalities	2015 result for City of Regina
Symbol	⬇	⬇	⬇	⬇
Label	Min (Regina)	Median (Regina)	Max (Regina)	
Description	Regina result is at the Minimum	Regina result is at the Median	Regina result is at the Maximum	
Symbol	⬇	⬇	⬇	

Results from municipalities are shown with the following abbreviations:

C City of Calgary	**D** Region of Durham	**H** Halton Region	**Hm** City of Hamilton
L City of London	**M** City of Montreal	**N** Niagara Region	**O** City of Ottawa
R City of Regina	**TB** City of Thunder Bay	**T** City of Toronto	**Wa** Region of Waterloo
W City of Windsor	**Wg** City of Winnipeg	**Y** York Region	

How to Read the Graphs (continued)

The **Column Graphs** are designed to show how participating municipalities compare with each other on selected service measures. Results for 2015 are shown along with comparative results from 2013 and 2014, where available.

Unit of Measure (Y axis): Refers to the unit of measure, e.g. dollars, percent, number.

Median: The 2015 median is shown as a black line of the column graph.

Results: the results for each municipality for 2013, 2014 and 2015 (where available) are shown in the data table beneath the Column Graph. Only those municipalities that participated in that Service Area are shown on the graph. A "–" in the data table indicates the municipality did not have data at the time of printing; or did not collect data for that specific measure in that year.

	Calgary	Hamilton	London	Montreal	Ottawa	Regina	Toronto		Windsor	Winnipeg
2013	$4.19	$9.31	$6.22	-	$9.01	-	$6.65		$21.55	$6.66
2014	$5.59	$9.14	$5.74	-	$8.41	-	$8.29		$16.68	$8.50
2015	$6.19	$9.84	$5.99	-	$7.97	$5.01	$7.74		$13.47	$6.75
Median										
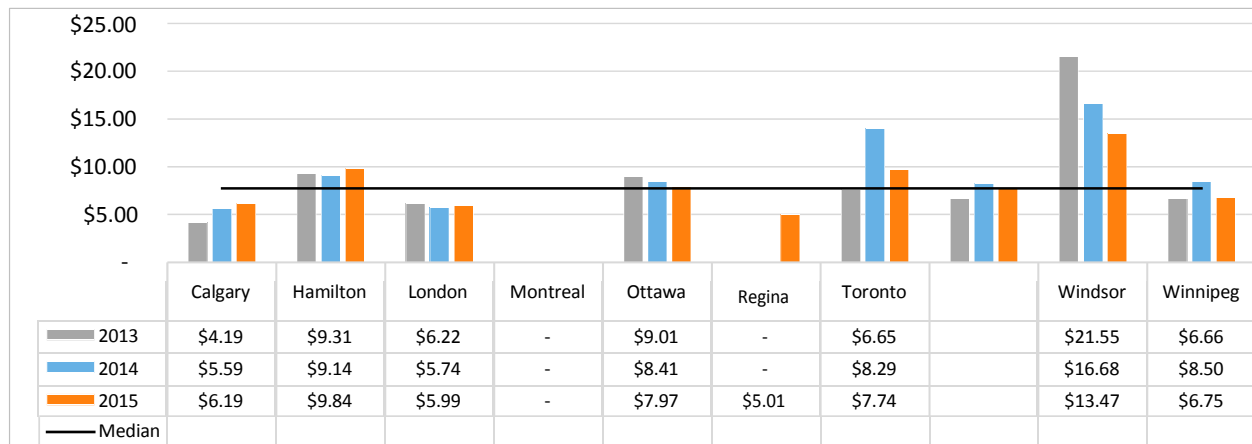

Comments are provided immediately beneath the graph to explain Regina's result, including the influencing factors for why the result is high or low compared to other municipalities.

Police Services

What is the Service?

Municipalities are responsible for the provision of adequate and effective Police Services to ensure the safety and security of citizens, businesses and visitors. To fulfill this mandate, each municipality and police agency creates and implements strategies, policies and business models that meet the specific needs and priorities of their local communities.

Specific objectives include:
• Crime prevention
• Law enforcement
• Victims' assistance
• Maintenance of public order
• Emergency response services

Influencing Factors

Demographic Trends: Socio-economic composition of a municipality's population.

Non-Residents: Degree of daily inflow and outflow of commuters, tourists, seasonal residents and attendees at cultural, entertainment or sporting events who require police services are not captured in population based measures.

Officer/Civilian Mix: Differing policies regarding the type of policing work that may be done by civilian staff in one municipality vs. uniform staff in another.

Public Support: Willingness of the public to report crimes and to provide information that assists police services in the solving of crimes.

Reporting: Available police resources, departmental priorities, policies and procedures and enforcement practices may all influence the number of reported criminal incidents (unreported crime is not included in crime rates).

Specialized Services: Additional policing may be required at airports, casinos, etc.

Municipal Benchmarking Network Canada: Police CAO Measures

Appendix C

MBN Canada Results

Questions and Answers

Key Messages:

- The City of Regina is working hard to ensure residents get good value for their tax dollars through effective, efficient service delivery
- Participation in MBN Canada will provide us with comparative benchmarks so we can understand and report on our effectiveness and efficiency in comparison to other municipalities and trends in our own performance over time.
- Results will be used to inform planning, budgeting, and service delivery so that we can continuously improve.

General Questions about MBN Canada and Regina's Participation

Q1: What is the Municipal Benchmarking Network Canada?

A1: The Municipal Benchmarking Network Canada (MBN Canada) is a national organization that provides a rigorous framework for measuring municipal efficiency and effectiveness on a wide range of services. Currently sixteen municipalities in six provinces are members of MBN Canada.

The network collects data annually on more than 700 measures across thirty-seven (37) municipal service areas. MBN Canada publishes an annual report of approximately 160 measures that have been found to be of most interest to the public.

Q2: What cities currently participate in MBN Canada?

A2: The following cities are members of MBN Canada: Calgary, Hamilton, Halifax, London, Montreal, Ottawa, Thunder Bay, Toronto, Windsor, and Winnipeg. In addition, the following regional municipalities are also members: Durham Region, Halton Region, Niagara Region, Region of Waterloo, and York Region.

Q3: The range of municipalities and municipal responsibilities within MBN Canada is wide. How does MBN Canada ensure comparability from one municipality to the next?

A3: MBN Canada has several approaches that contribute to comparability:
- Strict measure definitions that have built in mechanisms to account for differences between municipalities such as reporting on a per capita basis.

- Recognizing that not all municipalities deliver the same services. Members are only required to report on those services they deliver.
- Review of measure results by expert panels who provide some assurance that the methodology is being followed
- Periodic compliance reviews to ensure municipalities are following the established methodologies

MBN Canada also recognizes that there are unique factors in every municipality that will affect measure results. These factors, such as weather and geography, could limit comparability, but are identified for each service area so readers can understand differences in performance more fully.

Q4: The City does more than just deliver services to residents. How does MBN Canada account for these "internal" services to ensure the City is operating effectively and efficiently?

A4: Efficiency measures are based on a standardized approach to service costing and occurs at two levels:
1. The **direct** cost of delivering the service: Any costs that are directly attributable to the delivery of a service such as personnel, materials, fleet, etc.
2. The **total** cost of delivering the service: Includes all of the **direct** costs as well as the cost of any overheads such as human resources, finance, etc. The MBN Canada framework brings with it a specific methodology for allocating these costs to ensure that appropriate comparisons can be made.

In addition, the MBN Canada service inventory includes internal services. This allows readers to compare the cost of delivering internal services as well as understand the impact of internal services on the cost of delivering services to the public.

Q5: Why did Regina join MBN Canada?

A5: The City of Regina is working hard to continuously improve its ability to provide effective and efficient service to residents. Participation in MBN Canada will provide Administration, Council and residents with a standardized set of comparative benchmarks that will allow them to understand the City's effectiveness and efficiency in comparison to other municipalities and to assess trends in the City's own performance over time. This information will be one mechanism to identify areas where improvements may be in order.

Currently, the MBN Canada membership is primarily Ontario municipalities, but membership outside Ontario is growing and expected to grow further. Currently, Calgary, Winnipeg, Montreal and Halifax are all members. Saskatoon, Edmonton and Vancouver are also exploring memberships at this time.

Q6: Will Regina be reporting on all 37 services in the MBN Canada System?

A6: No. MBN Canada includes services that aren't delivered by the City of Regina (such as long term care homes). Regina will be reporting on 28 services. In 2016, we will be reporting on the first 15 of these services. Over the next two years, we will work to get our data collection systems ready for the rest of our services. We plan to report on 25 services in 2017 and all 28 in 2018.

Q7: **You've indicated that MBN Canada has over 700 measures. But the report released by MBN Canada includes far fewer – where is the other data?**

A7: The annual report of MBN Canada includes the approximately 160 measures that the board of MBN Canada believes are most important to the public.

Most of the other measures will be used internally by City Administration in business planning or analyzing policies or issues. You may see the data show up in reports to Council and its Committees from time to time as this data is considered publicly reportable. Once Regina has systems in place to report on all of its services, it will give consideration to posting these results on our Open Government site.

There are a few measures in the system that are under development and are not considered ready to be used publicly. Generally this information would not be used for comparative purposes until such time as the measure is nailed down more fully.

Questions about the City of Regina's Performance in 2016

A general note: Administration has identified a few notable outliers where we anticipate possible questions. General answers are provided below. Questions on specific measures or on services not covered in the questions below should be referred to Administration.

Q8: **What services is Regina reporting on in 2016?**

A8: Regina is reporting on the following services in 2016, which were selected simply because they were the services that were the most ready to report the data required by MBN Canada: Building Permits and Inspections; Clerks; Facilities; Fleet; Human Resources; Information Technology; Investment Management; Legal; Parks; Parking; Payroll; Police; Taxation; Transit; and Waste Management.

While Regina has provided data for all measure associated with these services, the public report released by MBN Canada will include data for only 61 measures in the first year of our participation.

Q9: **How did the City of Regina perform in comparison to other MBN Canada municipalities?**

A9: Generally, Regina sits within the range of performance by other municipalities. In most cases, we are neither the most effective and efficient nor the least. The results indicate that the City is generally providing residents with good value, comparable to other municipalities in Canada.

Q10: What are the highlights in our results?

A10: Regina's performance in two areas stood out:

- ***Taxation:*** The City's tax arrears are the lowest among all MBN Canada municipalities and the efficiency of the service (the cost of maintaining property tax accounts per tax account serviced) is also the best. This provides an indication of a highly effective and efficient service that, potentially, could provide lessons for the rest of the City.
- ***Building Permits and Inspections:*** For most of 2015, the reporting year, the economy was such that we were still seeing high construction levels, so we therefore had the second-highest number of new residential units per 100,000 population. When factored over population or construction volumes, Regina's performance was strong.

   While Regina's cost of providing building permit and inspection services per $100,000 of construction was the lowest among MBN Canada municipalities by a considerable margin, this may point to an underlying cause to a problem this service has been trying to overcome – delays for customers. The issue is under consideration as part of the 2017 budget process.

Q11: What results suggest that Regina has some work to do?

A11: The following areas are outliers to other municipalities:

- ***Parking:*** Regina has the lowest number of paid parking spaces managed by the City per 100,000 population within the MBN Canada system.

   - Regina uses metered parking only in the downtown area and does not manage off-street paid parking lots. The measure highlights that the City is not leveraging its high demand curb side parking space specifically in zones adjacent to downtown. Managing this demand appropriately ensures turnover and ensures parking availability for public use.
   - The measure does not speak to the general availability of paid parking in the downtown. Regina has a number of privately managed paid off-street surface lot and parkade options available.

- ***Payroll:*** Cost per payroll cheque was high and the number of cheques processed per FTE is low. The results for this service indicate high cost and low productivity.

   - In 2015, Regina was working with an antiquated payroll system that required significant manual process. By mid-2016, this system had been replaced with a new, modern payroll and human resources information management system. This should see costs decline and productivity increase in the future.
   - These measures will be monitored to ensure the intended results of the new system are realized.

- ***Police:*** Regina's police-reported crime and crime severity are among the highest within the MBN Canada system. However, we are doing the right things to ensure the safety and security of our residents. In the past eleven years, 2005 to 2015, Regina has had the second

largest decrease in the Crime Severity Index in Canada with a 48% reduction. Only Halifax (at -51%) had a bigger decrease. In 2005, Regina's Crime Severity Index was over twice as high as Canada's. In 2015, the gap had shrunk to just 54%. Regina Police Service will continue to work to ensure that Regina is a safe community.

- *Transit:* Regina has low transit usage when compared to other members of MBN Canada. Ridership is stable and anticipates an increase as the City has just embarked on a partnership with the University of Regina Students' Union to strengthen service. What is valuable to note from the data, is that even with low ridership, it is evident that the Transit system is managing system costs (on a per vehicle hour basis).

- *Waste Management:* Regina has the highest level of solid waste production coupled with the lowest level of solid waste diversion. The results for waste management are consistent with a city that has recently started to work with residents on concepts of conservation and waste management. For example, recycling, where we began our diversion efforts, only makes up 11% of the waste generated. However, organics (yard waste, kitchen waste) – an area where we still haven't begun to provide service, make up 55%. There will be proposals coming forward in the 2017 budget to increase diversion levels and compliance with waste management plans that should, in time, contribute to an improvement in the results in this service area.

Re: Monthly Crime Statistics – December 2016

RECOMMENDATION

This report be received and filed.

CONCLUSION

The crime statistics for the month of December 2016 reflect an increase in Crimes Against the Person of 2.4% compared to December 2015, while Crimes Against Property show a 12.5% increase compared to December 2015. Crimes Against the Person and Crimes Against Property show a combined year-to-date increase of 9.2%.

BACKGROUND

Each month, reports providing statistics for the City of Regina are presented to the Board for their review and information. This report will provide statistics for the month of December 2016. The Communications Centre statistics are included showing the total calls for service.

DISCUSSION

Crimes Against Property reflect an increase of 1,405 reported incidents over 2015, for an overall year-to-date increase of 12.5%. We have seen an increase of 650 reported incidents of Theft Under $5000 for a 13.5% increase. There are 29 more reported incidents of Mischief / Wilful Damage for a 1.1% increase.

Thefts of Auto rates have increased by 172 incidents for an overall increase of 17.2% in our year-to-date statistics. The Regina Police Service in conjunction with its partners in the Stolen Auto Strategy continues to pay constant attention to this issue.

Crimes Against the Person reflect a year-to-date increase of 60 incidents over December 2015 for a 2.4% increase. There were 29 reported Robberies in December for a year-to-date increase of 58 incidents or an increase of 24.7%.

Overall the Regina Police Service has received 1,173 more reported incidents of Crimes Against the Person and Crimes Against Property combined in 2016 over 2015 for a 9.2% increase.

There were a total of 6,574 dispatched Calls for Service in December for a year-to-date increase of 2.9% and Alarm Calls for Service show a year-to-date decrease of [-16.2%].

RECOMMENDATION IMPLICATIONS

Financial Implications

None with respect to this report.

Environmental Implications

Re: Year-End Crime Statistics Comparison 2007-2016

RECOMMENDATION

This report be received and filed.

CONCLUSION

There were 20,114 total police-reported crimes[1] in Regina in 2016, which was 6.6% more than in the previous year but 12.1% fewer when compared to ten years earlier. The increase in total crime compared to 2015 was driven primarily by increases in Property Crime, specifically Motor Vehicle Theft (+17.2%), Theft (+14.0%) and Break and Enter (+14.0%). There was also a substantial increase in Robbery (+24.7%).

BACKGROUND

Twice each year, once at mid-year and once at year-end, the Regina Police Service provides an analysis of reported crime in Regina over the previous ten-year period. This report compares data compiled from January 1 to December 31 for the period of 2007 through 2016.

Measuring crime statistics over time is effective for identifying trends. Data is gathered in the same manner each year to ensure the analysis is reliable. Absolute crime counts, rather than crime rates or crime severity, are the basis of this analysis.

These statistics are not intended for comparison with other jurisdictions that may use different methodologies or have different reporting criteria.

DISCUSSION

Total Crime

The 20,114 reported Total Crime in 2016 were 6.6% more than in 2015 but 12.1% fewer than in 2007.

---

[1] Total Crime is an account of Crimes Against the Person, Crimes Against Property, and Other Criminal Code violations only. Criminal Code Traffic and the Controlled Drugs and Substances Act offences are excluded from this total. These same categories are excluded from the Crime Rate released by Statistics Canada each year.
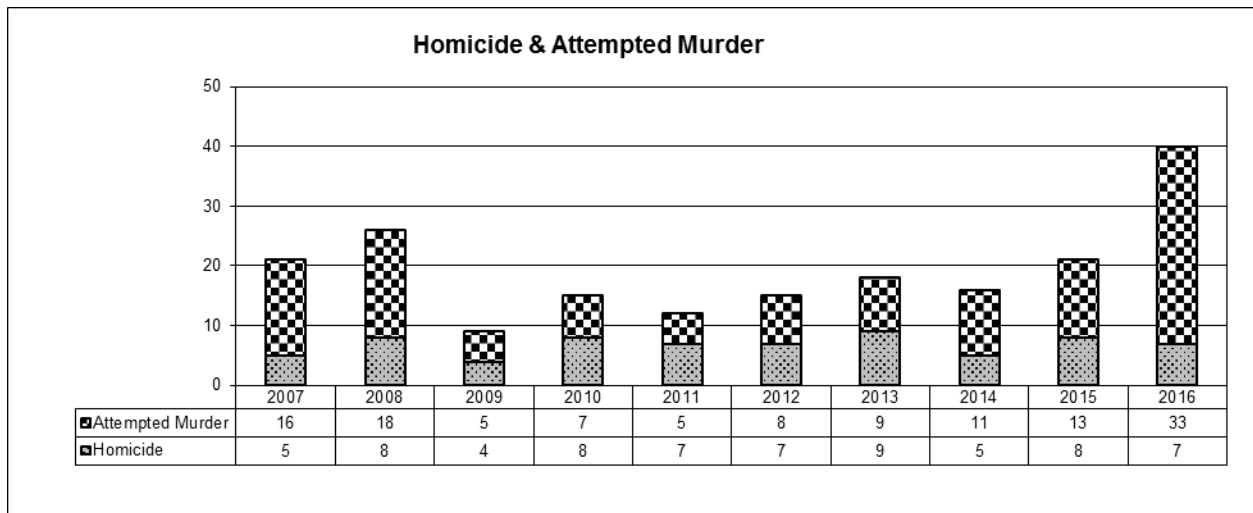

Total Crime

---

[2] Assault 1, or common assault, occurs when one person applies force or threatens to apply force to another person. This may include gestures, physical pushing or a threatening act and often results in little to no physical harm to the victim. Assault 2, or assault with a weapon or causing injury, occurs when there is an injury to the victim either caused by force of another person or the result of a weapon. Assault 3, or aggravated assault, is the most severe type of assault which causes serious injury to the victim that may endanger their life.

There were 16.0% more Sexual Assault[3] reported than in 2015 but 2.7% fewer than in 2007. There were 43 Other Sex Crime offences in 2016, which was higher than the 10-year average of 22 offences.
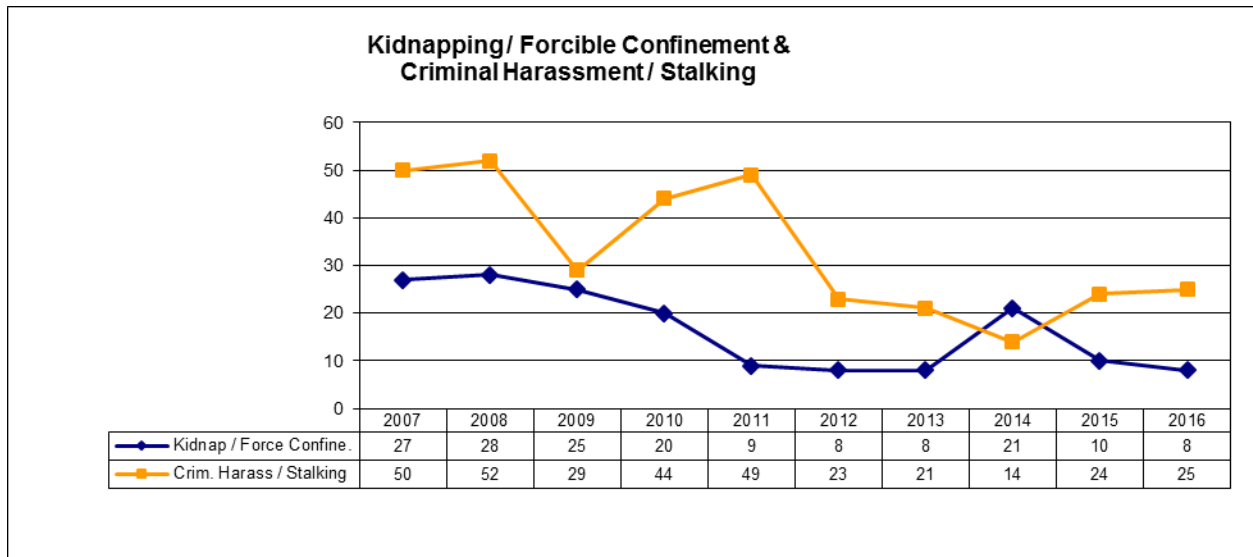

Sexual Offences

Residential	1,708	1,045	841	730	767	674	693	777	681	799
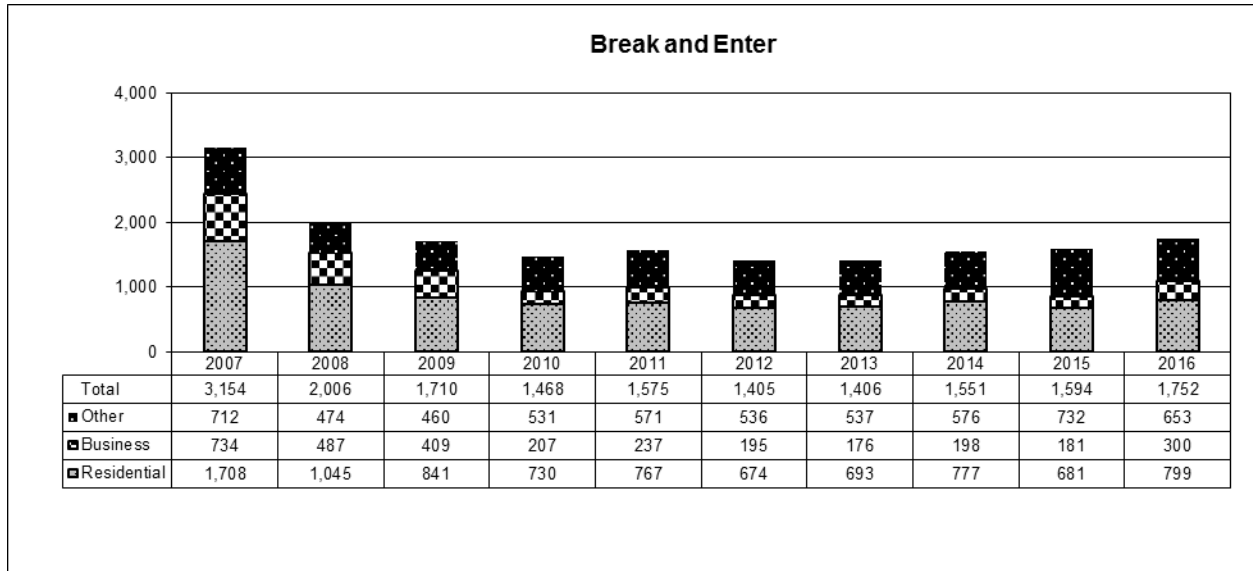

There were 1.1% more Mischief / Wilful Damage occurrences than in 2015 but 22.5% fewer than in 2007. There were 415 incidents of Graffiti (a sub-category of Mischief) in 2016, which accounted for about one of every six Mischief incidents.

Mischief / Wilful Damage

	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016
Mischief	3,420	3,762	3,491	3,060	2,679	2,526	2,470	2,347	2,622	2,651
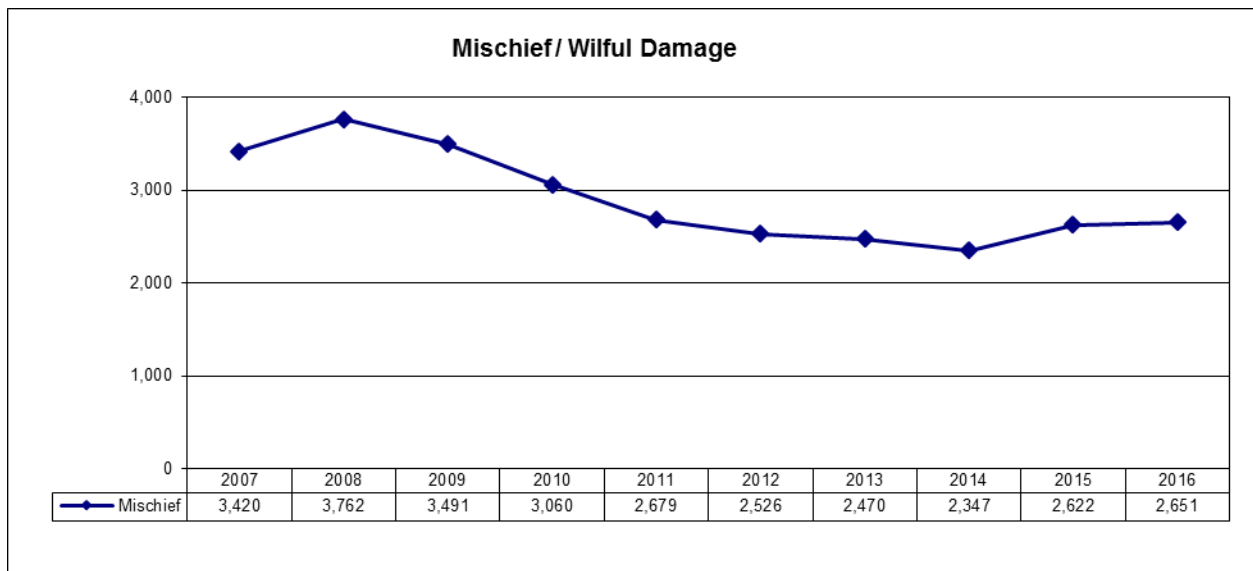

There were 174 Arson occurrences in 2016, which was higher than the 10-year average of 89. This increase is partly explained by improved communication protocols between the Regina Police Service and Regina Fire & Protective Services regarding minor suspicious fires.

Arson

	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016
Arson	102	99	92	59	56	60	89	56	103	174
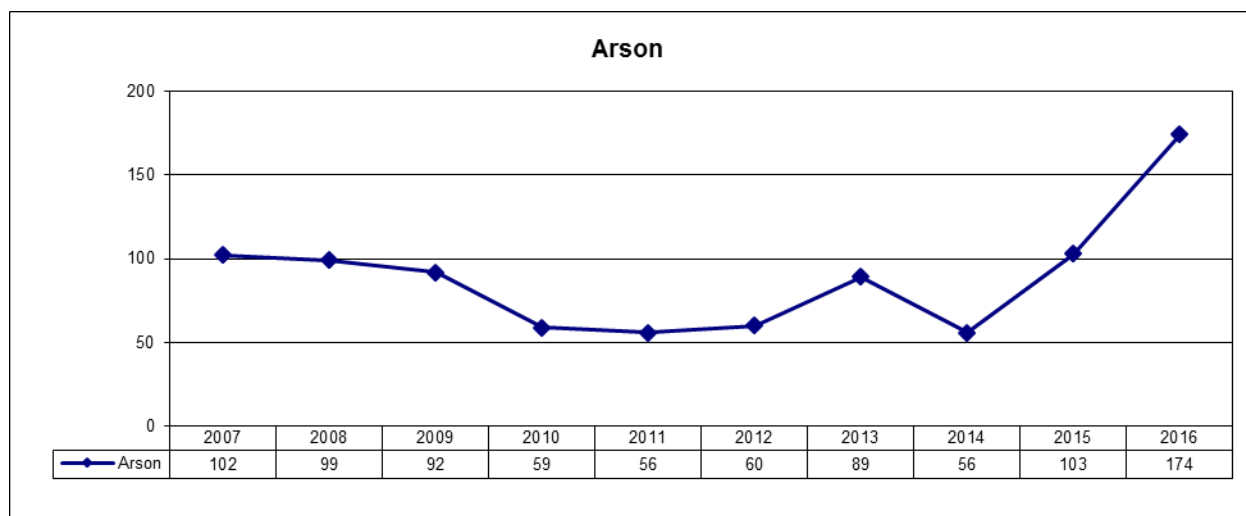

Other Criminal Code Violations

The 4,929 Other Criminal Code[4] were 4.2% fewer than in 2015 but 3.3% more than in 2007.

Other Criminal Code

	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016
Other CC	4,773	5,074	5,402	5,540	5,461	5,248	4,841	4,672	5,145	4,929

---
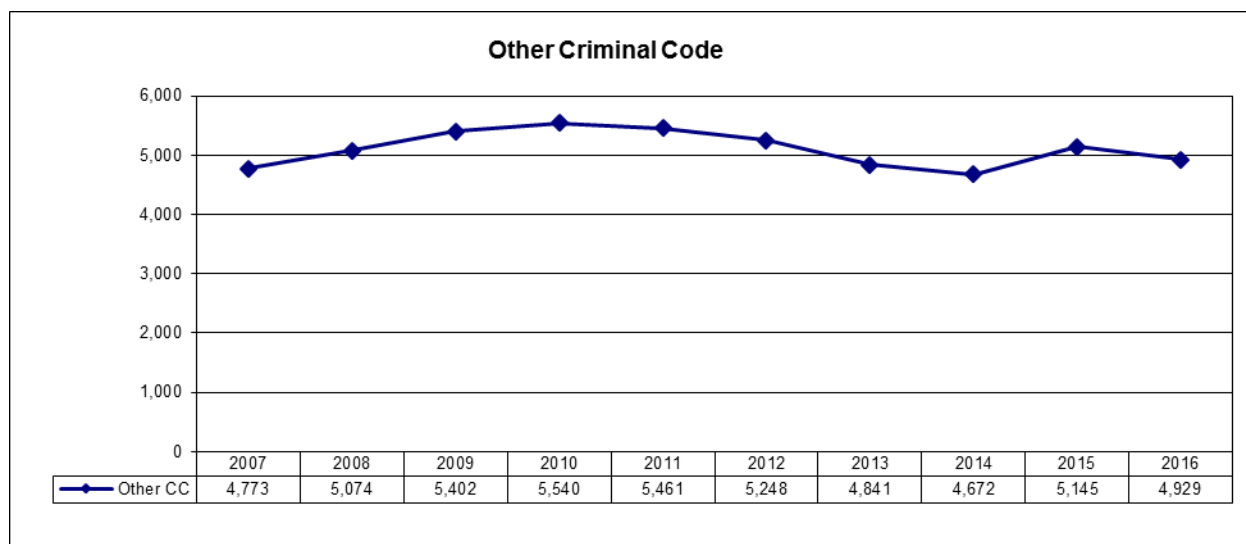

[4] The crime category Other Criminal Code Violations includes: procedural violations, offensive weapons violations, prostitution, counterfeiting currency, and gaming and betting.

Procedural Offences make up almost nine-tenths of Other Criminal Code violations. There were 0.5% fewer Procedural Offences in than in 2015 but 11.2% more than in 2007. This 10-year increase in primarily due to a 24.0% increase in Fail to Appear occurrences over that time period.

Procedural Offences

	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016
Total Procedural Offences	3,965	4,394	4,718	4,772	4,830	4,590	4,424	4,148	4,432	4,409
■Breach of Probation	616	620	731	714	714	663	667	614	766	633
▣Bail Violation	1,408	1,581	1,749	1,728	1,727	1,641	1,710	1,544	1,539	1,370
▢Fail to Appear	1,941	2,193	2,238	2,330	2,389	2,286	2,047	1,990	2,127	2,406
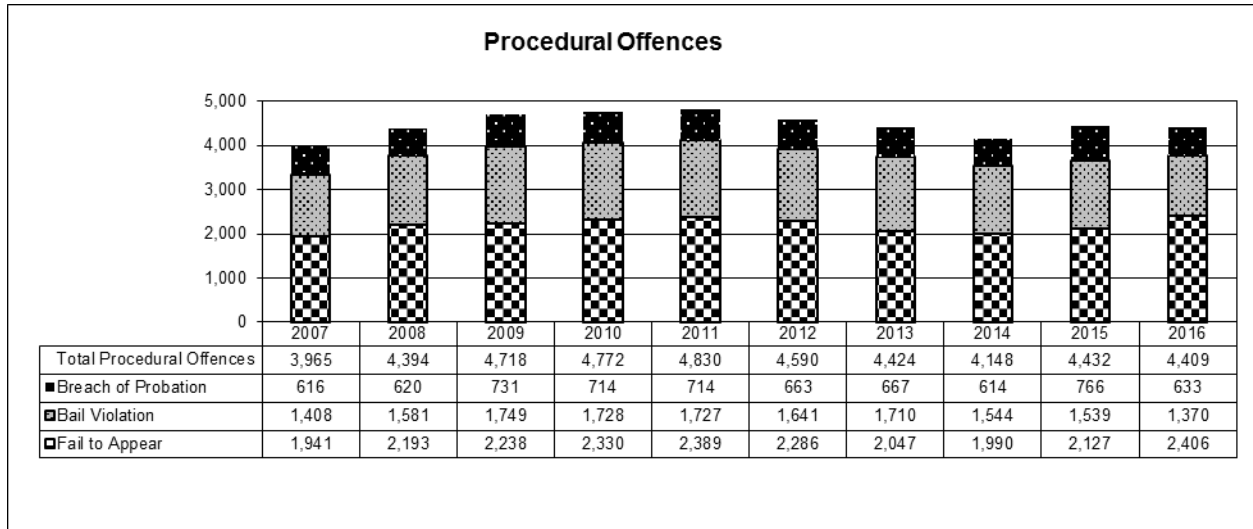

There were 19 Prostitution offences in 2016, which was below the 10-year average of 80 occurrences. Parliament developed new Prostitution legislation (Bill C-36), which was implemented on December 6, 2014, which includes the crime category "Commodification of Sexual Activity."

Prostitution*

	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016
Prostitution	89	103	100	99	115	118	119	6	36	19

* Includes new category "Commodification of Sexual Activity"
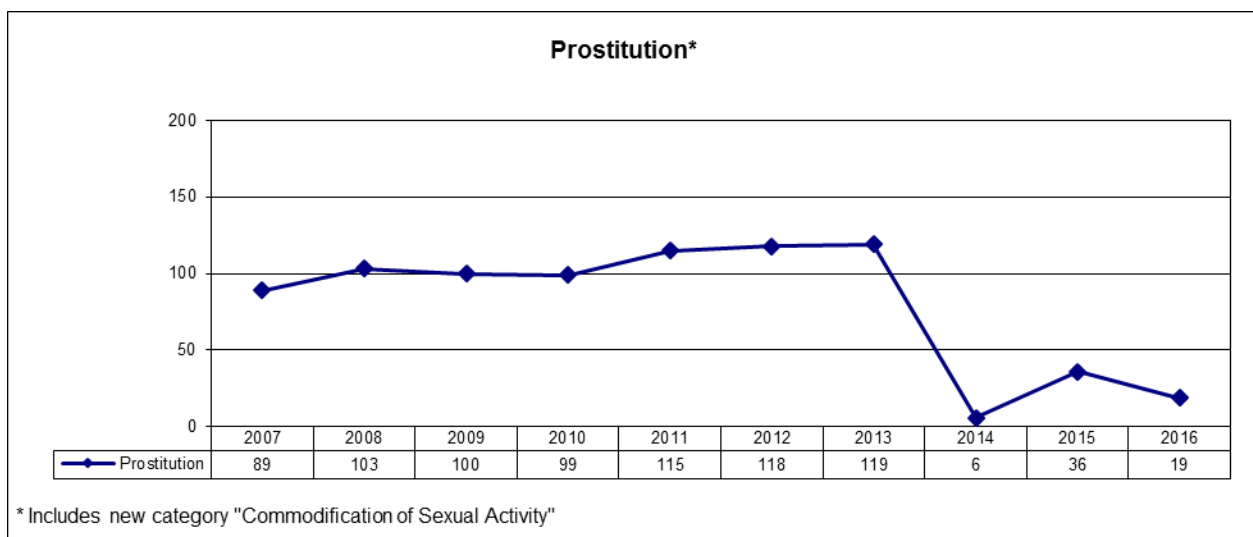

Controlled Drugs & Substances Act (CDSA) & Traffic

There were 0.9% more CDSA occurrences than in 2015 and 26.4% more than in 2007.

Controlled Drugs & Substances Act (CDSA)

	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016
CDSA	447	431	480	511	579	585	739	558	560	565
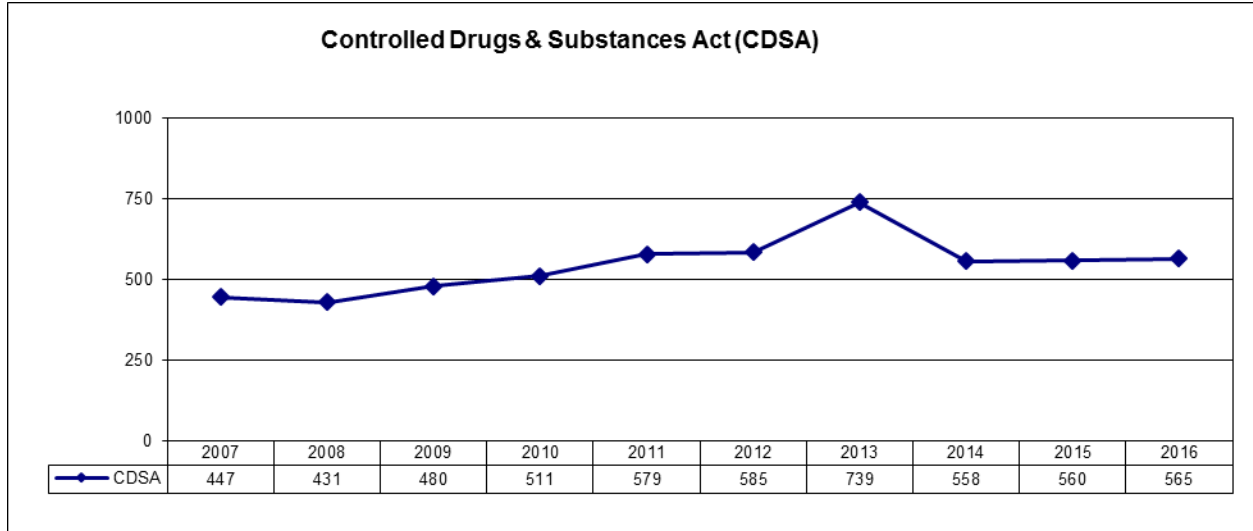

There were 0.5% more Traffic occurrences under the provincial Traffic Safety Act or Criminal Code compared to 2015 and 31.7% more than in 2007.

Previous to 2009, reports of unexplained vehicular damage were taken as the Criminal Code offence 'Failure to Stop or Remain' (Hit and Run). Following a best practices review and consultation with SGI, such reports are no longer classified as a Criminal Hit and Run unless evidence exists of intent to flee the scene of a vehicular collision by an offending party. Instead, most of these reports now fall under the Traffic Safety Act offence 'Fail to Report MVA / Property Damage.'

Traffic Offences (Traffic Safety Act & Criminal Code)

	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016
Total	4,013	4,715	4,936	5,336	5,362	5,167	5,736	4,912	5,258	5,286

Total	24,224	30,009	25,979	29,069	32,576	31,681	30,932	23,056	53,833	41,065

---
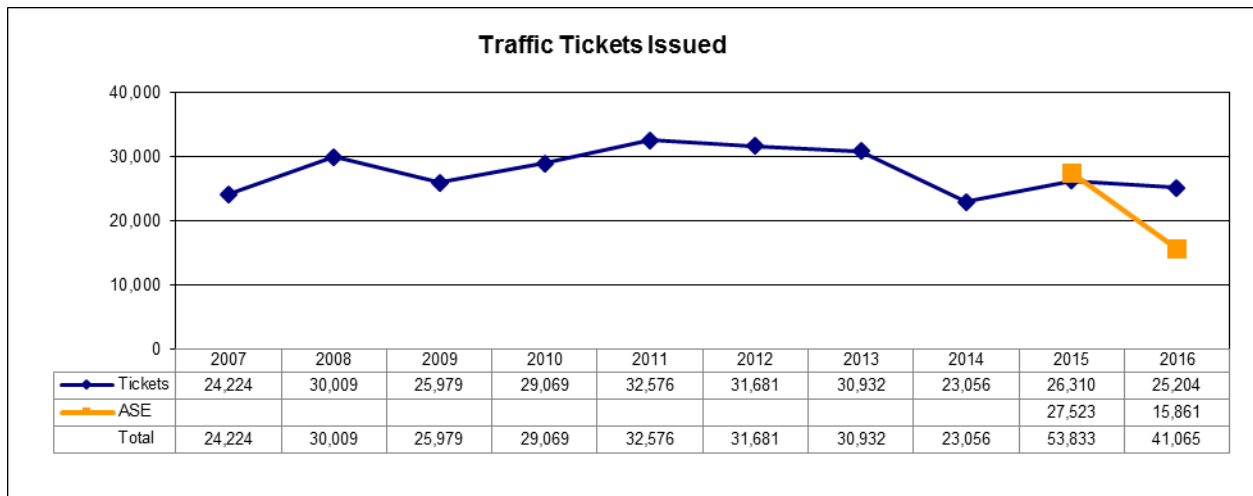

[5] The category Traffic Tickets Issued includes red light traffic tickets but excludes photo speed enforcement, inspection tickets and 24 hour, 30 day, and 90 day suspensions.

Calls for Service

There were 0.8% more Calls for Service recorded by the Communications Centre in 2016 than in 2015 but 0.6% fewer than in 2007. Overall, the total number of calls for service tends to remain relatively stable.

Alarm Calls decreased by 16.2% compared to 2015, continuing the reductions that have occurred since the Regina False Alarm Bylaw went into force in 2005. Over the last decade, there has been a decrease in Alarm Calls for Service of 53.4%. Alarm Calls made up 1 out of every 7 Calls for Service in 2007 but that has been reduced to 1 out of every 14 Calls for Service in 2016.
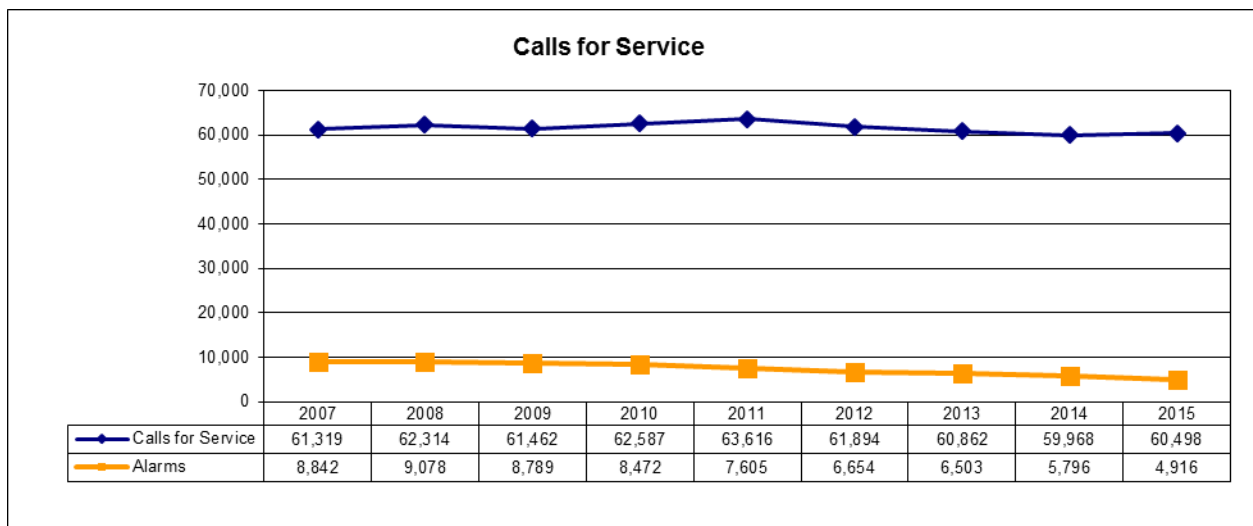

Calls for Service

Re: Letters of Appreciation and Social Media Feedback

RECOMMENDATION

This report be received and filed.

CONCLUSION

Copies of letters and Social Media feedback are being filed with the Board for information purposes.

BACKGROUND

The attached copies of letters have been received from the following:

➢   KIN 180 Students, University of Regina
➢   Yev Khovrenkov
➢   Social Media Feedback for December[various]

DISCUSSION

Comments pertaining to any specific letter or Social Media feedback are welcome.

RECOMMENDATION IMPLICATIONS

Financial Implications

None with respect to this report.

Environmental Implications

None with respect to this report.

Strategic Implications

None with respect to this report.

Other Implications

None with respect to this report.

COMMUNICATIONS

Copies of letters and Social Media feedback are forwarded to:

➢ Member
➢ Supervisor
➢ Human Resources for personal file
➢ Department bulletin board

Respectfully submitted,

Evan J. Bray,
Chief of Police

Chief Bray,

Hi, my name is Lauren and I am a Kinesiology student at the University of Regina. On behalf of my KIN 180 class I would like to thank-you for your contribution to the Saskapalooza volleyball tournament. You took off financial stress by allowing our student coaches a free criminal record check.

Sincerely,

KIN 180 students

Message Body:
Hello Regina Police,

Even though it might seem unusual, but I would like to thank CST Hawker for issuing me a ticket.
My driver's license was expired and she saved all of us a lot of trouble by "catching" this oversight.
She was extremely professional and courteous along the way.
Thank you.
Merry Christmas and Happy Holidays!

CST. HAWKER,
I think it is significant to note you issued a ticket in this incident, yet clearly made a positive impact on the person involved. Thank you for your professionalism and attention to safety in Regina!

Evan Bray

Social Media Feedback

We always receive a lot of positive comments, messages, tweets, etc. from the public, on the great job our officers are doing in the community. We're now going to scale it back a bit and only show a handful of the positive posts from social media in these reports. We have also included a few posts from our Instagram feed, which has over 3,700 followers (and growing), and is a great way to quickly share photos. We should also note that our Instagram feed has a lot of younger followers, making it a great way to reach out to more users and share our messages.

Social Media Feedback: Facebook– December 2016

The 2nd annual Regina CopShop was a great success, with 20 kids getting the opportunity of a shopping spree with one of our officers! Each kid received the following, courtesy of the Cornwall Centre: a free new winter coat from Sears Canada, free Team Canada / Équipe Canada mitts from Hudson's Bay, free jeans from the Gap, a $10 Dollarama gift card, and a $200 Cornwall Centre gift card to shop anywhere in the mall! Various stores also gave discounts to the kids today to help ... See More

Vicki Kaminski I love the role models our officers are for our children! The more positive involvement and interaction the police have with our youth can only help. Kudos to you all!

Slightly cliché yet too cute not to share!

This little sweetheart bought doughnuts and coffee for officers (with her own money!) and brought them over to the station last night. 😊🚓🍩 On behalf of all the officers who were working last night and enjoyed the snack, thank you!

Thank you guys so much! Your social media team is awesome
Thanks for getting back to me
love ya guys
Keep up the good work RPS 😊

Regina Police Service added 13 new photos to the album: K9 Cops for Kids 2016 — at ● Regina General Hospital.

Published by Kim Schmidt [?] · December 20, 2016 at 10:18am · ✿

Two officers from the Regina Police Service K9 Unit, as well as a K9 Conservation Officer from Prince Albert visited the Regina General Hospital on Monday (December 19, 2016) afternoon with a few RPS canines and stuffed toys for the children up on 4F. The kids loved meeting DDD Kruz and PSD Axle and loved their stuffies.

Alain Clermont This is great

Regina Police Service shared TRiP's post.
Published by Kim Schmidt [?] · December 22, 2016 at 3:52pm · ❄

The TRiP team is a wonderful bunch, helping lots of Regina youth out with positive lifestyle choices. Cst Seiferling & Cst Lalach were out in their "elf gear" delivering gifts today, and Chief Evan Bray tagged along to visit his buddy Colton from the #CopShopYQR event that took place in the Cornwall Centre on December 7th. Way to go TRiP & Chief Bray!

TRiP added 4 new photos.
Published by Melinda Lalach [?] · December 22, 2016 at 3:30pm · 🌐

Over the last two days TRiP staff elves delivered Christmas cheer to some of our TRiP kids. In addition, Colton got a surprise visit from his CopShop buddy Chief Bray! #yqrtrip #reginapolice #merryTRiPmas

SAT 4:55PM

Merry Christmas to you all keeping our city safe. May you all have a Merry Christmas and Happy New year. Be safe

SAT 1:03PM

Just wanting to wish you all a very Merry Christmas. Thank you for all you do and thank you to all your families that miss seeing you this holiday season while you keep us all safe and sound!

TUE 10:35AM

I just want to send a big thank you to Badge 838 for his professional and good-natured attitude while attending the vehicle collision yesterday at Quance & Starlight. It was really appreciated out in the cold 🙂

Merry Christmas and happy new year to the great unsung heroes. I wish you all the best and thank you for keeping our streets safe.

(On December 21ˢᵗ, Traffic officers Cst Warnar (Regina Police) and Cst Clement (Moose Jaw Police) teamed up to give out positive tickets! Calling it "Christmas Tweets" (as they were twitter officers, giving out "treats"), they spent their morning in Regina and afternoon in Moose Jaw, giving out $5 Tim Hortons gift cards and toys (teddy bears, stuffies, toy cars) if the parents were driving safe and kids were buckled up properly. It was a positive day, which people (especially the kids!) were quite thankful for, and provided a great positive way for the public to interact with police officers.)
